About

I have almost 5 years of experience working as a designer at a creative agency. I design websites, mobile applications, and complex digital products, working with visual concepts and design systems. I'm used to working independently, understanding the task, finding solutions, and bringing them through to implementation. In my free time, I explore no-code and AI-assisted development, building my own projects and interactive prototypes.

Experience

Lazarev. agency	Feb 2022 — Present
4 years 7 months	

Position	Senior UI/UX Designer	Location	Kyiv, Ukraine
		Format	Remote

- Designed complex B2B, SaaS, AI, fintech, cybersecurity, and e-commerce products
- Worked with information architecture, user flows, wireframes, high-fidelity UI, and interactive prototypes
- Created AI-assisted prototypes to quickly validate concepts and product hypotheses
- Developed design systems, component libraries, and scalable UI patterns
- Collaborated with product and engineering teams from concept through implementation
- Created presentations, social media creatives, case studies, and other visual communication materials
